2-year Postdoc position

The genomics of supergene evolution in butterflies

Montpellier, France

CNRS - Centre for Evolutionary and Functional Ecology

Contact: Mathieu Joron (mathieu.joron@cefe.cnrs.fr) <http://joron.cefe.cnrs.fr>

Study chromosomal inversions controlling **mimicry** in an Amazonian butterfly. Discover how **inversions** establish and spread through populations. Explore how supergenes **change mating systems** and **population demography**. Combine genomics, fieldwork, and experiments. Join a lively research community in a pleasant city!

Apply by 23/02/2020
